Terminale zamiast agencji

Poland: **Customs terminals** will replace agencies

Rzeczpospolita (UDA) 24 Jan 2002

Language: POLISH

Poland: **Customs terminals** will replace agencies

The Central **Customs** Office in Poland **plans** to replace a several small customs agencies, with five large terminals situated at main routes... ..The main reason for the change in the customs structure, is fighting corruption. In new **terminals**, **customs clearance** will be carried out by one customs officer, and duty charges collected by another one...

EUROTUNNEL SCALES DOWN CUSTOMS CLEARANCE WAREHOUSE PLANS

UK - EUROTUNNEL SCALES DOWN CUSTOMS CLEARANCE WAREHOUSE PLANS

Eurotunnel, Channel Tunnel operator, is scaling down proposals for a vast Ashford-based customs clearance warehouse. Nearly all freight coming from EEC nations is now set to clear customs at locations connected by computer to customs when the Channel Tunnel opens in two years. Customs & Excise is proceeding well in its proposals to establish customs clearance at destinations and not ports. A number of importers are introducing Fastlane, the system which connects freight destinations to the leading customs computer.

Global multiproduct production-Distribution planning with duty drawbacks

Abstract:

Duty drawback refers to a full or partial refund of paid import duties when an imported merchandise is destroyed, exported, or consumed as a raw material to produce an export. Despite their... ..drawbacks range from US\$1.5-10 billion per annum. In light of this hefty sum of unclaimed duty drawbacks, it is astounding that only one existing production-distribution model in the literature has attempted to include duty drawback. This article is the first to address this neglect of duty drawback in supply chain research by industry practitioners and academicians. To this end, it introduces...

Abstract Indicator: Abstract

Abstract: ...initiated in 1988--30 years after the adoption of the so-called Law of Tariffs. **Additional tariff** changes took place in 1989 and the whole process was significantly deepened in 1990. The Real **Plan** affected the import **tariff** policy in multiple ways. Price stabilisation naturally stimulates the demand for **import goods** as a result of both income and price effects. Nonetheless, reduced import tariff rates were explicitly used as a means to reduce domestic price pressure, and in **addition** the **tariff** policy was affected by the proximity of the date by which Mercosur's External Common Tariff was agreed to enter into operation. This **article** evaluates the Brazilian **import** tariff policy in the first two years of the Real Plan, trying to identify its...

Material import and export monitoring method for international trader, has customs server to audit import and export materials based on information on stocks and repeating auditing when... Alerting Abstract
...provide interfaces for users to maintain information on import and export materials and stocks. A **customs server** (16) audits the materials based on information on stocks and transmits a bill of entry... ..16 **Customs server**
Original Publication Data by Authority**Original Abstracts:**A system for monitoring imports and exports includes a number of client computers (10), an **enterprise server** (12), a **customs server** (16) and a database (14). The **client computers** provide interfaces for users to input information and obtain information. The enterprise server audits import... .. stocks, automatically generates a bill of entry, and transmits the bill of entry to the **customs server**. The enterprise **server** includes a system configuring module, a data **maintaining module**, a bill of entry generating module, a bill of entry status maintaining module, a customs data synchronizing module... .. auditing module. The database stores configured information, generated bills of entry, and feedback of the **customs server**. A related method is also disclosed. ...**Claims:**the system comprising a plurality of client computers, an enterprise server, a database and a **customs server**, wherein:the **client computers** provide interfaces for **users** to maintain information on import and export materials and stocks;the enterprise server receives and handles input information, generates bills of entry, and transmits the bills of entry to the **customs server**, the **customs server** comprising:a data maintaining module for **adding, modifying, inquiring and deleting information** on import and export materials and

stock;an auditing module for auditing import and export materials... .. bill of entry generating module for generating bills of entry based on the audited information **on import** and export materials, and for transmitting the bills of entry to the **customs server**;the database stores configured information, the bills of entry and feedback of the **customs server**; andthe **customs server** receives the bills of entry from the enterprise server, generates feedback of the bills of entry, and **transmits the** feedback to the enterprise server.>

Publisher: JURISTFORLAGET I LUND, BOX 207, SE-221 00 LUND, SWEDEN

In international commerce, various taxes and charges are levied on **commodities**; besides, **goods** may be subject to **import** and export restrictions. However, free-trade agreements may stipulate that some goods can be imported... ..the classification of goods. Different national systems of classification may set up trade barriers. The **creation** of uniformly designed **customs** tariffs is hence a long-standing ambition which resulted in the 1983 International Convention on... ..the European Union, the USA, and Japan, among others. Russia and several other East European **countries** have also joined the system; so has China.

The present thesis describes the HS nomenclature ...
